

# **HEALTHCARE PRIVACY ADVISORS LLC**

**Protecting Information. Ensuring Compliance. Empowering Trust.**

## **COMPANY OVERVIEW**

Healthcare Privacy Advisors LLC provides specialized healthcare privacy consulting services to physician practices, clinics, ambulatory care organizations, and healthcare business associates. We help organizations strengthen HIPAA compliance, reduce privacy risk, investigate potential violations, and build effective privacy programs that protect patient information and support operational excellence.

## **MISSION**

To help healthcare organizations protect patient information, reduce regulatory risk, and foster a culture of privacy and compliance through practical, experience-driven solutions.

## **CORE COMPETENCIES**

### **HIPAA Privacy Risk Assessments**

Evaluate privacy practices, identify vulnerabilities, and provide actionable recommendations.

### **Privacy Investigations**

Conduct objective reviews of alleged privacy violations, inappropriate access, and disclosure incidents.

### **Audit Trail Reviews**

Analyze electronic health record access logs and user activity to identify potential privacy concerns.

### **Breach Response Consulting**

Assist organizations with breach risk assessments, mitigation strategies, and regulatory response considerations.

### **HIPAA Training & Education**

Deliver customized privacy education for workforce members, managers, and leadership teams.

### **Privacy Program Reviews**

Assess policies, procedures, and privacy operations to improve compliance and reduce risk.

### **Privacy & Hotline Investigations**

Provide independent investigative support for privacy-related complaints and concerns.

### **Fractional Privacy Officer Services**

Offer ongoing privacy leadership and guidance for organizations that do not require a full-time Privacy Officer.
